

Demanded Pennsylvania Release Dolla; Chicago Jobs For Foreign-Born

New Arrests in Michigan Raid Cases

GET "OUTSIDE HELP"
By Federated Press
ST. JOSEPH, Mich.—Berrin county will not be bankrupted by the criminal syndicalist trials for which preliminary hearings have already been held. Outside money will be available to help the county prosecute the labor men charged with participating in a secret meeting Aug. 21. This promise was made to the supervisors by Dist. Atty. Charles W. Gore, who stated that the county would emerge financially sound from the trial.

Steel Trust Fury During Big Strike Sent An Innocent Man to Prison Hell for Long Term

This week we publish the facts in the criminal frame-up of Jacob Dolla by the holdings of the steel trust during the recent steel strike. We are not content to merely publish the facts. We want you, we want your organization to join the fight, to get into the drive demanding that Pennsylvania release Dolla forever, to clear the way for the exposure of Dolla's great and notorious, all down and write a letter or send a telegram to PENNSYLVANIA GOVERNOR, ARTHUR J. SIKES, HARRISBURG, PA. Get your labor union to send a telegram. We want the steel trust to help organize the steel struggle of the slaves of the steel industry. Here are the facts about the persecution of Dolla.

(Special by Staff Writer to "The Worker")
BETHLEHEM, Pa.—In all the black record of frame-ups by the American Capitalist Class there is no single piece of dirty work more monstrous than the framing of Jacob Dolla, member of the Amalgamated Iron, Steel and Tin Workers, who is languishing in a Pennsylvania prison under sentence of 12 to 17 years, a victim of the fury of the insatiable Steel Trust.

Altho the news of his incarceration is just beginning to come out, Jake Dolla has been in jail since Oct. 5, 1919. He was put there by the Bethlehem Steel Corporation, because of his splendid services to the workers in the great steel strike. Figuring on the aid of the large mass of foreign-born workers, most of whom did not belong to the union, the company tried to get away with a 25 per cent wage reduction in its plant at Lehigh, Pa.—but the figuring was all wrong. When the inevitable strike was declared the non-union men began to join the union, had one after another been arrested and convicted of bombing two dwellings. One was due largely to the untiring efforts of Jake Dolla, who was being in Lehigh and speaks five languages, and whose enormous printing printing the foreign-speaking elements made him a pivotal factor in the strike.

It also made him a marked man with the "enlightened" capitalists. They determined that he was to "get his"—just as Tom Moore and Sacco and Vanzetti had got theirs. One day there was an explosion. Dolla was arrested and sent up for a long stretch, convicted of bombing two dwellings. Jake Dolla is an innocent of the crime for which he is doing time as if he had never been born. Four other men had previously been arrested in the case and had confessed their guilt. They were now taken in hand by the prosecuting attorney, and their first confession was elaborated upon the understanding being that they were to be let off easy if they would testify that the whole thing had been done by Dolla, the other four men are Clarence Miller, William Mumford, John Sohn and Harry

Altho the dynamiting was supposed to have been the result of lengthy plotting with all of these men, Sahn admitted under cross examination that he never saw Dolla in his life until a few minutes before the explosion. As a matter of fact it was simply proved at the trial that when the explosion occurred, and for some time preceding then, Dolla was in a Lehigh room, chatting and drinking tea with a large party of friends. At the time when Dolla was supposed to be plotting on the telephone with conspirators of the bomb.

A Day with the Red Navy
By CHARLES ASHLEIGH
As a preliminary to our day with the Red Fleet, we went to the opera. The great Opera House of Petrograd is called the Mariinski Theatre, and is so named in honor of the Russian Navy who fought for the young revolution.

A party of eight of us went to the theatre—they were going, Prince Igor—the evening of the day of our arrival in Petrograd. But we could get no seats—the first act was nearly over, and the box office was closed. Then the audience poured out into the hall to smoke and talk. Hundreds of sailors were among them, the sailors of the Red Fleet, long upon this theatre as their own play-places.

Plan Unity in Political Fight for Chicago

By WILLIAM F. DUNNE (Special to "The Worker")
CHICAGO—Denunciation of the Socialist Party has opened tactics in Chicago, the patrons of revolution calling upon all labor unions and political organizations to mobilize for defense of all workers and unanimous endorsement of a request to the Chicago Federation of Labor urging a conference of all working class political parties to establish united action in the political field featured the conference of the Farmer-Labor party of Cook county here Sunday.

The resolutions on the defense of alien workers introduced by Jay Brown, National Secretary, Farmer-Labor Party, reads as follows: "The employers are planning a new offensive against the labor movement in the attack being launched upon the foreign-born workers. The Department of Justice urged that the foreign-born workers be photographed and finger printed like criminals. Secretary of Labor Davis says that the government has given authority to revoke the naturalization papers for unsatisfactory conduct after naturalization. Representative Hurdley has introduced legislation to amend Berlin, it is estimated in total.

WAR AGAINST WAR!
It is under these circumstances that the Russian Soviet Republic, by every means possible, is urging the workers of all Europe to war upon the threatened new capitalist war. Such demands have come from the executive committee of the All-Russian Soviet Congress, from the Communist International, from the Red Trade Union International, from the Young Communist International, while repeated appeals are published in the form of a message addressed to the Russian Communist Party, and "Russia's official organ and the Russian Soviet Government."

Protest Against French Action
It sharply protests against the action of France and her allies, and calls attention to its belief that war threatens, but makes no statement of what Russia's attitude would be if war ensued.

To All Active Members of the Workers Party in New York and Vicinity

We want to get an increased number of New York working men and women acquainted with THE WORKER. To do this we want you to help us by sending your Party in New York City and vicinity to hold up the sample copies of THE WORKER. We are sending you a list of names of the Workers Meetings and gatherings of the Workers' Circle, the Workers' Club and Death Benefit Fund and other fraternal organizations. This should be of course to follow up with an effort to get subscribers. If you want to help call at the office of THE WORKER, 290 Broadway, New York City, and ask for the business manager or the editor. Do this today.

Ashleigh's Story Makes Great Hit
The article by Charles Ashleigh, the revolutionary poet, in last week's issue of THE WORKER on the opening of the World Congress of the Communist International found an instant and enthusiastic response. This week we publish another article, which is direct to us from Moscow, on "A Day with the Red Navy," by the same writer. We hope to have similar articles for publication in future issues.

Striker Is Lynched; Why Not the Railroad Barons?

Small business men and farmers, who it is claimed had suffered because of the two year's strike on the Missouri and New Kansas Railroads, are alleged to have constituted the mob that lynched a railroad striker, R. C. Striker, at Harrison, Mo., by hanging him to a railway trestle. Other railroad strikers were either horse-whipped, wounded, or ejected or jailed. The violent outbreak against the spirited struggle of the railroad workers is said to have been headed by a "Citizens Committee of 1,000." The object very evidently was to direct attention away from the crimes of the railroad barons.

If that mob of blood-thirsty assassins had not been blinded by ignorance and prejudice, it would have known that those who really oppress them are the railroad and banking profiteers, and that if they had vented their lynching efforts on a few of these they would be hitting at their real enemy.

It is not to be expected that the Arkansas Chamber of Commerce will raise a \$50,000 fund to apprehend the lynchers and put them on trial and hang them in the morning. They have funds only for the war on organized labor, as at Herrin, Ill.; St. Joseph, Mich., and elsewhere.

The New War Looms

If France is pushing for the dismemberment of the German republic, as it is claimed, the militarist ambitions at Paris were making headway, as this issue of THE WORKER went to press. The German Fascist, Dr. Brücker, under Adolf Hitler, leader of the German army, was preparing for war with the ambition, no doubt, of Germany to dominate Europe. It is not unlikely that France may also seek to establish a sphere of influence in Europe.

WAR AGAINST WAR!
It is under these circumstances that the Russian Soviet Republic, by every means possible, is urging the workers of all Europe to war upon the threatened new capitalist war. Such demands have come from the executive committee of the All-Russian Soviet Congress, from the Communist International, from the Red Trade Union International, from the Young Communist International, while repeated appeals are published in the form of a message addressed to the Russian Communist Party, and "Russia's official organ and the Russian Soviet Government."

Protest Against French Action
It sharply protests against the action of France and her allies, and calls attention to its belief that war threatens, but makes no statement of what Russia's attitude would be if war ensued.

Don't Throw This Paper Away
The "Lancet" points out that the situation in the East is not so pacific, democratic, reformist tendency, but an extreme royalist reaction. In England, Holland, France and Belgium imperialist tendencies are prevailing, which strive for the complete abolition of social legislation. The slogan of the workers' government is possible in special cases in Central Europe, but it is impossible in the West with London, Paris, Lyons and Genoa. In view of the danger of world reaction the tactics of the Stern (Austria) characterizes the capitalist offensive as the last desperate effort of the world bourgeoisie to save capitalism. The best example of this is the Geneva Conference at which the world bourgeoisie ostensibly hastened to the aid of the Austrian bourgeoisie, although it is impossible to save it. The Austrian bourgeoisie under the leadership of the Communist International is possible in regard to the Austrian question. The Austrian example proves that even small countries can be successful in employing the united front tactics for large Social Democratic parties. The "Lancet" points out that the situation in the East is not so pacific, democratic, reformist tendency, but an extreme royalist reaction. Herrin Trial Ending; Alibis for Prisoners

By MALISTER COLEMAN (Federated Press Correspondent)
MARIETTA, Ill.—The first of the Herrin trials draws to a close, the case for the five union coal diggers on trial here becomes steadily stronger. Alibis for all the defendants are now in. Witnesses traced the movements of Herrin, Grace, one of the defendants from the time he left his home in Marietta to the morning of the rioting until long after the killing. Grace was accused by Donald Ewing, a Chicago newspaperman, of having stood astride the body of a dying gunman at the Herrin scene, refusing to allow the reporter to give water to the gunman.

Ewing was in court and heard the testimony of witnesses after whom he saw and talked to before the shooting. This article is published in the Soviet Government's "The Worker" International as follows:

Discussed at C. I. Congress

By Radio to Impropkor (Berlin) and Forwarded by Mail to The Worker
MOSCOW, Nov. 17.—The Marxist Examination Commission made its report today announcing that 61 delegates are represented in the Fourth World Congress of the Communist International by 302 delegates, 44 of whom have advisory status. The delegates being admitted as advisory youths.

The debate upon the capitalist offensive was thus continued. Radek (Holland) in opposition to Trotsky states that in the West there is imminent not a pacific, democratic, reformist tendency, but an extreme royalist reaction. In England, Holland, France and Belgium imperialist tendencies are prevailing, which strive for the complete abolition of social legislation. The slogan of the workers' government is possible in special cases in Central Europe, but it is impossible in the West with London, Paris, Lyons and Genoa. In view of the danger of world reaction the tactics of the Stern (Austria) characterizes the capitalist offensive as the last desperate effort of the world bourgeoisie to save capitalism. Senator-Elect Hits Palmer, Daugherty

BORIS K. WHEELER, Senator Elect from Montana, in a letter sent to Labor leaders, counsel and executive committee, Attorney General Daugherty and laudably the fact that the Department of Justice is showing thinking people to have respect for our government institutions. Wheeler's letter follows:

"Morris J. Lorch, Chicago, Ill. DEAR SIR: I am in receipt of your article, and thereby agree with you that these attacks carried on by former Attorney General Palmer and by the present Attorney General Daugherty, are doing more to break down our constitutional guarantees than anything else that has happened in any time and is indeed causing thinking men to have respect for our institutions or at least for those persons who are charged with upholding the same."

Respectfully,
B. K. Wheeler.

This letter is typical of hundreds of letters received by the Labor Defense Council from men and women prominent in the public life of the country. It is merely a coincidence that this letter was received on the same date as the one received from Tom Moore who is himself one of those who has suffered severely by the breakdown of the machinery of justice.

The Murder of Mer Rouge

Murder is an ugly thing. Bourgeois society is shocked at it. The bourgeois press is outraged by murder that it commits murder to punish murderers. But when the capitalist state, this hanging, shooting, the electric chair and now by the proposed "lynchings" commits murder, it is accepted as one of the justifiable functions of capitalist society.

The bourgeois press now professes to be very much disturbed over the fact that the Ku Klux Klan, as shown in the re-arranging murder trial at Mer Rouge, La., assumed some of the functions of state. It set up laws of its own, deported its victims or subjected them to savage tortures until dead.

It was a self-righteous Governor Parker that hurried to Washington to present the distressing circumstances to President Harding, and Attorney General Daugherty who decided it was a "state matter" and that the federal government could not act. This the state prosecution.

THE WORKER has fought the Ku Klux Klan at every opportunity. We have pointed out that, at the proper time, the Ku Kluxers, with the American Legionnaires and other jingo organizations, will become the American Fascist against America organized workers.

BUT WE SAY THAT THE COURT ATTACK ON THE KU KLUX KLAN, AT MER ROUGE, LA., IS A LUSCIOUS BIT OF BOURGEOIS HYPOCRISY.

What does Governor Parker have to say about the brutal exploitation of black and white labor in the lumber and sugar camps of Louisiana. Nothing. Yet every time the Ku Kluxers, from one of the states that make up "The Solid South," where most lynchings of Negroes take place. Yet about the same time that Parker was in America, legion going attacked on a republican "statesman" enforced the lynching of negroes by rejecting the Dyer anti-lynching bill.

Capitalist justice, with its grand juries, courts and murders, machines, was not moved to action upon the blood-spattered W. W. organizer, was hanged by a masked mob in Butte, Mont., when Prager met a similar fate in Southern Illinois; no machinery of justice was let loose when 1,100 workers were deported from Bisbee, Arizona, by a copperhead legion going attacked on a republican "statesman" enforced the lynching of negroes by rejecting the Dyer anti-lynching bill.

A Task for You

There are probably very few passively sympathetic readers of THE WORKER. We take it for granted that anyone who sympathizes with Communism, also has some desire, no matter how small, to spread its message.

It is therefore, that we now dare to speak to practically every reader of THE WORKER on the subject of the distribution of one million copies of the Communist program adopted by the Second National Convention of the Workers Party.

We just do it. We believe in the necessity of feeling that not only one million, but nearer five million copies of this program ought to be spread among the workers of the nation.

Directions to the various party branches and committees for their part in this nation-wide distribution were published in last week's issue. But great results can also be accomplished thru the co-operation of isolated individuals, even those who are affiliated with the party. In fact the distribution of this program in those sections where the party has no organization is extremely important because it crystallizes the sentiment that will come to life in time as a party branch.

Therefore, if you are a lone Communist, or a lone Communist sympathizer in your town, or your neighborhood, get a bundle of these program leaflets and distribute them from house to house. Pass them out among the members of your labor union. Give the members of your Workers' Circle, your Workers' Social and Death Benefit Society, or other fraternal organization an opportunity to read it. Order a bundle and carry a few at all times in your pocket, dropping them among the passengers on street cars or railroad trains. This is a task for you, the kind of work that should bring you great joy to think that you have helped.

THE WORKER will publish each week the progress that is being made in the distribution of millions of copies of this program leaflet. Will you appear among those on the Communist roll of honor?

The Ruhr and the Revolution

We have yet to hear of the views of many French socialists bold enough to contend that the middle class, French imperialism is deliberately invading the Ruhr valley in the least check the European social revolution.

Great Britain and the United States adopt a "hands off" policy, because they fear the consequences of any other standard; Belgium and Italy join France because they must have a share in the spoils, if there are any to be gotten.

It is, therefore, interesting to study the interpretation of the Russian position, toward these developments given by Walter Duranty, in the New York Times.

This shrewd capitalist observer in Moscow, maintains that France is deliberately invading the Ruhr valley for the purpose of dismembering it. It hopes to do this thru forcing Communist revolutions in Berlin and Saxony, and monarchist seizures of power in East Prussia and Bavaria, leaving the French to enjoy the cause of all French fears. So that the ultimate balance will be on the side of Communism and against capitalism.

It is this situation that appalls America's capitalist statesmen at Washington as they fall back on Wilson's favorite policy of watchful waiting. World capitalism indeed, seems to have lost its unity and virility thru its five years war on the Russian Workers' and Peasants' Republic. While the forces of capitalism are disintegrating the legions of labor throughout the world are developing ever closer unity, the solidarity that will be crowned not only with European, but with world victory.

Death sentences imposed upon 122, sentences to life imprisonment for two, seven died while awaiting trial. This is not a report of British government in the Near East. It is the result of the arrest by a Jewish government of five non-cooperators in Liebhov, India.

France Has Its Liebknecht

French imperialism's invasion of the Ruhr industrial district, the heart of Germany, has given France its Liebknecht in the person of Marcel Cachin, one of the editors of the Paris Communist daily, L'Humanite, and a Communist member of the French Chamber of Deputies.

"Treason" Cachin was charged hurled at Cachin as he is in the session of the French chamber that declared its confidence in Poincare's anti-German policy by a vote of 360.

Cachin had just returned from Essen where he had met with the Communists of seven nations to protest against the new war. Because Cachin, with other Communists, tried to develop peace resistance among the workers of France and Germany, he is charged with being a traitor to French capitalism, his parliamentary immunity will be stripped from him and he will be placed on trial for high treason.

Such a prosecution produced no such opposition to French jingoism as Cachin and his fellow Communists now offer in the French chamber. Small in numbers, but united, they present an effective resistance to the patriarchal clamors of the royalists and nationalists. The "Socialists" are divided as usual, one "Socialist" deputy Ehrlich, even approving Poincare's policies.

We do not know what the immediate future has in store for Cachin, who was recently convicted with others on the charge of carrying on Communist propaganda among the French conscripts. In its present hysterical efforts to maintain itself in power, French jingoism may drive Cachin from his chamber of deputies, but it will not put him on trial and convict him. It may even put him to death, but the accelerated forward sweep of revolution will continue.

That is what German Kaiserism did to Liebknecht, aided in the final chapter by the German Social-Democracy, and this month Communists throughout the world gather to remember him.

May the spirits of Liebknecht and Cachin unite the workers of Germany and France in their common enemy, French imperialism, so that they will move forward together to victory under the emancipating standards of Communism.

Supporters of "The League"

The seizure of the Ruhr Valley by the French definitely raises the question of the spread over western Europe of the Communist revolution.

It is in this crisis that the more timid elements in the ranks of labor and capital, appeal to the "Black International," the so-called League of Nations.

Ex-Judge John H. Clarke, who left the United States Supreme Court to espouse the cause of "The League," opened his campaign in New York City on the night that the French legions were taking possession of Essen. Clarke fears for the stability of the present social order in the following words:

"The statesmanship is blind that does not see that Russia and Germany, united in misery and despair, would be a sign to our social order not less than to that of Western Europe. In their exhaustion, Britain and France could not stand against it, and what would our prospects become with Russia triumphant in the Atlantic and bent on the conversion of the world?"

It may be too late in two years more to prevent this unholy union, but with the League of Nations, Germany would eagerly enter it, and the danger would be past.

This idea was the central theme of the propaganda tour of this country by Georges Clemenceau, the French war premier. But Clemenceau insisted that the "unholy alliance" between Russia and Germany had already been consummated.

It is not unlikely that Clark and Clemenceau could get the League of Nations to accept the German working class will be caught in this snare.

This matter was thoroughly considered at the recent meeting of the Amsterdam International. This "Socialist" outfit places on record once more its emphatic protest. That is a good place to keep a protest—in a minute book. In the meantime the Communists are being arrested and their headquarters and papers raided because of their active opposition to the new war.

The Amsterdam International wants the question of reparations settled by some means of arbitration under the League of Nations, thus placing its usual faith in this child of the Versailles Peace. J. H. Thomas, the reactionary head of the British Railwaymen's Union, returns to London from Amsterdam and declares that, "The Communists are already pouring into the Ruhr Valley, ready to take advantage of the situation."

"Obviously," declared Thomas, "if the French pursue this method the effect must be just what those who would want Germany to turn bolshevik desire."

It is easy to understand that Thomas, the "British Socialist," with his counterparts in France, Germany and other countries should ally themselves with the capitalist of the United States

British Trade Unionists are being organized by the French for the purpose of social revolution in the Ruhr valley. The French will push the American Consulate in London to the Black "Capitalist" International, which is the common enemy of the world, into closer relations with the Communist International and the Red International of Labor Organizations.

Several groups will not have much time to devote to labor's interests before the French will have taken possession of the Ruhr valley. The French will push the American Consulate in London to the Black "Capitalist" International, which is the common enemy of the world, into closer relations with the Communist International and the Red International of Labor Organizations.

Unmask This Conspiracy

"Private interests" are secretly conspiring to railroad William Z. Foster, C. P. Rutenburg and their co-conspirators under Michigan Criminal Syndicate Law to Prison. Like a masked band, these "private interests" hide behind the Berrien County and Michigan State authorities, who are nominally prosecuting the case.

Berrien County tax-payers concerned about possible onslaughts upon their pocket-books have been told that "Wall Street" is financing the prosecution. This report spread among the people, following a lively meeting of the supervisors with District Attorney Charles W. Gore. These County officials were told by Mr. Gore that the needed funds would come from outside sources and that there was no intention of crippling Berrien County finances.

Several big business organizations have been campaigning against the defendants ever since the raid on the convention of workers at Bridgman last August. These include the American Defense Society of New York, whose president is Elton Husker, well-known war profiteer.

The Washington Director of this organization, which recently sent General Pershing on an anti-labor lecture tour of the country, District Attorney Charles W. Gore, J. H. Thomas, and the Boston "Transcripts" so-called "Red Raid" articles. These, like the subsequent series they inspired in the New York "Herald" and elsewhere, were an open and brazen and contradictory that they created ineffectively, despite their noise, in a wilderness of popular skepticism.

The fact that invisible "private interests" are using the courts to keep out of the hands of the public, should muster all workers of labor's general defense. The less radical flanks are within range, and the capitalist forces have plenty of ammunition. Should their attack upon the progressives be successful, the turn of the conservatives will be next. In the emergency, labor will stand if it united; divided, labor will fall.

To heighten the prosecution with its petard, counsel for the defendants, headed by Frank P. Walsh, finds it imperative to take a number of affidavits in different parts of the country. A new development in this case has occasioned this unexpected demand upon the Defense Fund and a fresh appeal for contributions to meet it. The burden of the defense's argument rests upon these proposed affidavits and workers everywhere are urged to give their mite for victory. Contributions should be sent to the Labor Defense Council, 166 W. Washington St., Chicago, Ill.

Dictator for Dress Industry

We are having an increasing number of dictators selected to rule over us. Lamentable! Hayes for the movies, and Thomas for the theater. Now comes Mosesohn, for the Associated Dress Industries of America, at \$50,000 per year, to be taken out of the sweat and blood of the needle workers.

Mosesohn is the first "dictator" to be appointed in an industry with a large mass of organized labor. He comes face to face with the International Ladies' Garment Workers' Union in the dress industry, said to be the third largest industry in the United States.

"Dictator" Mosesohn claims he will have nothing to do with any "labor policy." Yet it is difficult to understand how a \$50,000 a year, who has been selected to rule over the dress industry, can keep his attention from one of the main problems confronting those who employ him.

It is to be expected that Mosesohn will develop unity of action among the dress bosses. If employers already complain to him on achieving some results in this direction during the past few years. Instead of chaotic conditions that once prevailed, with all the little bosses and the big bosses and the middle-sized bosses fighting each other with every possible scheme, with every "unethical" sort of weapon, we are now told that everything is moving ahead beautifully for the "big bosses." Many of the smaller bosses have no doubt fallen by the wayside, as the bankruptcy of the dress industry is due in due time by Mr. Mosesohn, so that complete "law and order" will prevail in the dress industry.

The officialdom of the International Ladies' Garment Workers' Union constitutes the greatest bulwark against amalgamation of labor's forces in the clothing industry.

Perhaps these officials will now see a danger signal on labor's stormy horizon, in the words of the "dictator," can keep his attention turned his attention toward developing solidarity against an ever greater enemy of the "big bosses," against the forces of "organized labor."

The officialdom of the International Ladies' Garment Workers' Union constitutes the greatest bulwark against amalgamation of labor's forces in the clothing industry.

With the wiping out of the "little bosses," the united big bosses, appreciative of greater victories, will advance against the organized workers, more able because of their unity to bring victory to their standards than at any time in the past.

Now is the time for amalgamation of all workers in the clothing industry, to be formed into one vast association with a super-dictator at the head.

The bosses are amalgamating and are selecting their dictators. On another page we publish an article on amalgamation for the workers that should be carefully considered by every man and woman who toils in the needle industry. And let that consideration be followed by every worker in the clothing industry. The workers must beat the bosses at their own game.

Mr. John D. Rockefeller, Jr., is sending invitations to 100 women to the Women's Club, New York City, to be held on the 10th of the month. The women are to be invited to the Women's Club, New York City, to be held on the 10th of the month. The women are to be invited to the Women's Club, New York City, to be held on the 10th of the month.
