I would rather deal with Bill Green and a host of others like in factor deal with him wealth of experience— THEIR INTERESTS ARE YOUR INTERESTS".

Thus spoke Gen. Johnson, NRA administrator, recently 4000 bosses when discussing strikes and labor unions.

How well the events of the past week prove he was rightin the longshore strike, the auto workers strike and the attempt to saddle a permanent 10% cut on the railroad workers! For in both the former cases, through the medium of appeals from Roosevelt to AF of L heads for postponement, laying the base, the way was opened for conferences whose aim was the complete selling out of the workers. How desperate was the situation of the auto bosses, where 100,000 were ready for the fight, is clear in the fact that only after a final third conference ending Sunday in the White House between Green Johnson, Roosevelt and automobile manufacturers, was a "settlement" announced.

On this coast only the last minute appeal of Roosevelt and the treacherous acceptance of a postponement on the part of Lewis, Finnegan, Holman & Co., prevented the strike which had been overwhelmingly voted by the longshorement and for which they were prepared. No wonder Holman got sick and hasn't been afound since. But the wrath of the longshoremen is not merely confined to anger. Living Standard Up?

Both Selles and Mrs. Moore have children in the local schools, and both have been tireless and tearless leaders in the struggle for better relief and conditions for the unemployed of Richmond.

A special article by Walter Warren, Associated Press Business Writer, was featured in the Hearst "Call-Bulletin" of March 22, under the title "Standard of Living Up". In this article the business writer twists and squiras to try to show that sometime, somewhere in California there once was something sometime, somewhere in carnot in a there once was something which he desperately tries to call a rise in "real wages" within the last year. (Real wages are he money wages received vorkers adjusted for changes in he cost of living or the prices which workers have to pay. During the first two camp periods, about 500,000 young men, supposedly working on forest conditioning, were put through intary training and in one case, "28 workers in a camp near Eurek tary training and in one case, 25 workers in a camp leaf Edited against army drill and won their demands". In other camps, although workers were discontented and grumbled against the training, they were forced to continue their because their protests were unorganized and ineffective.

THIRD SCHEDULE BEGINS. For the third camp period, beginning in April, 300,000 unemployed is the quota sought for 1,468 CCC camps throughout the country. Thus a large group of young men between the ages of 18 and 25 are being trained for war under the pretext of giving IDEALS AND THE 18 and 25 are being them unemployment relief. LOWERING STANDARD OF LIVING.

The CCC purpose is double edged. The first is that of swelling into being a new society such as the resorve army forces, as pointed out above; and the second edge cuts into our standard of living by setting the example of "wages" at a Dollar-a-Day or \$30 a month to CCC workers. The worker receives \$5 and \$25 goes to his family, distributed through relief agencies. Even at that, some camps "chiseled" and gave the men only \$1 in cash and \$4 in credit at the commissary which overcharged 22c for eigarettes; sold a 5c package of envelopes for 25c; a book of 24-1c stamps for 30c.

In the seventeen years the working class has learned much with

regard to war. They have seen the breakdown of the treacherous "Socialist" International, all sections supporting their own capitalists. In this country the Socialist Party Convention voted against war but the leadership sabotaged by providing no programs or apparatus to carry on that fight. The pacifists pleadings hushed up at the first bugle call. The workers learned that only by organizing and fighting before war is declared can war be stopped. similar scheme, in their effort to beat back the great strike wave. In California they are alarmed because of the eight-fold increase in the Party membership since the beginning of the crisis, and that the Communists led more than 70,000 on strike during

But the workingclass of the United States, has advanced tremendously since 1886, and has learned very much of the frame-up and provocative schemes employed by the bosses. In reply to this campaign of the American Fascists, the May First

turnout will be greater than ever.

Workers, Small Farmers, and all sincere friends of the working peopel! Look back to more than a year's experience with the "New Deal", and what do you see?

Results of "New Deal"

The lot of the unemployed is more miserable than over, as millions have been on a starvation diet for years and are seriously undernourished. The relief rolls in many cities have reached the highest figure since the beginning of the crisis (San Francisco, 63,500).

The speed-up developed in production is so great that even decrease of the working day, will hardly effect the mass of unemployed, most of whom, according to government admission, are doomed to remain jobless.

are doomed to remain jobless.

Experience with NRA codes to date show that the minimum wage rates set have become the prevailing wage, ranging from \$12 to \$15 per week. But the cost of living, especially of food products and other necessities, is climbing further, beyond the reach of the small pay envelopes. Food price figures issued by the Bureau of Labor Statistics show an increase of from 16% to 25% in most large cities, over April 1933. The "Minimum Health and Decency Budgets" set by the government, amounting in various cities to from \$1,558 to \$1,988 per year, have long ago been forgotten. been forgotten.

Housing conditions for workers in the United States have deteriorated to among the worst in the world. In addition to overcrowding, a large percentage of the workers are forced to live in dilapidated tenements, which "legally" should have been

ondemned as unfit to live in.

Starvation, evictions, or being forced to double up with other families, breaks up hundreds of thousands of homes, and leads at least 300,000 youth to roam the highways.

The school system throughout the country has broken down.
Two million eight hundred thousand children of school age are not able to attend. Two thousand rural schools in 24 states did not open their doors last autumn. Most schools made considerable outs in their states. able cuts in their terms. School budgets were cut drastically while, interest to the bankers is paid promptly.

Suicides have reached a record rate.

These are oblessome of the effects of the crisis and are in bloom at the moment, more than a year since Roosevelt coffice. It is a downright falsehood that the "New Deal" aims to

relieve these conditions. CWA work was abolished, and the amount for the new work relief will only permit a starvation level. The National Labor Board created, is only for strikebreaking purposes. Increased war and government expenses mean an increase in taxes for the masses with small incomes. Measures, supposedly to aid the farmers, have only proven to be millions in the pockets of the landlords, mortgage sharks, and land companies.

Only Communists Lead Fight Only the militant workingclass movement, under the leadership of the Communist Party has a program of resistance to this drive against the workers. It is therefore only the Communist Party, and the organizations it leads who will make May First into a day of struggle. We should take an example from the very movement which gave birth to May First.

May First was born in the United States in 1886 out of the

general strike for the eight-hour day involving more than 500, 000. It was the organization which later became known as the American Federation of Labor; that initiated that offensive, which spread over the entire country, and that time the workers proved how militant they could be if not held back and betrayed

The bosses, seeing the advance of the fighting movement, resorted to a provocation through their agents, throwing a bomb into a demonstration at Haymarket Square which killed a police sergeant. A battle was provoked in which seven policemen and four workers were killed. The answer to the militancy of the workers was to frame-up its best leader. imprisoned, and four, Parsons, Spies, Fischer and Eugel were condemned, to the gallows.

May First, Fighting Day of Labor

The commemoration of these valiant fighters has since become a yearly clarion call to the exploited masses for militant struggle. But the AF of L leaders soon abandoned it and replaced it by "Labor Day" — a day of collaboration with the bosses. This policy these reactionaries maintained since 1890. has developed it to a point that at present they are the chief support for the drive against the workers.

In 1889 at the International Socialist Congress, it was adopted as the International day of struggle. It has since spread to every corner of the gibbe. But as in the case of the AF of L, the Socialist International has become an instrument for betraying every struggle of the workers. Its leadership mobilized the workers to support the imperialist war. Its leader-than given support to every move against the Soviet Union. It proved itself the most effective instrument in the hands of the imperialists for combatting every attempt to set up a workers republic. The Socialist parties affiliated with it are among the most reliable supporters of their respective capitalist government. ernments: As in the case of Germany or Austria, they tie the hands of the workers, while Fascism advances.

Only Communists Keep Fighting Tradition

Only the Communist Party has inherited and continues, the fighting traditions of, the American workers. The Communist Party reminds the workers that some of the most militant struggles in the world's labor history took place in the United States — Cripple Creek, Ludlow, Homestead, the Great Steel Strike, Gastonia, the Seattle General Strike, or more recently, the San Joaquin Cotton Strike, and the Imperial Valley Strike, are only some of the heroic battles. It is these struggles that have won more food for the workers families, better homes to live in clothing, and abolished some of the most inhuman means

The bankers, manufacturers, landlords, and large growers, who own everything in the U.S. would force us back to a pauper standard such as prevailed in those early days. For millions dependent on unemployment relief, working in agricultural fields, or in the southern industries this is actually the case now.

Raise Fight to Higher Level!

As in 1886 the workers now face the task of spreading the nation-wide struggle. Just as the strike wave in 1886 established an eight-hour day for hundreds of thousands, so now a wave of strikes and demonstrations can halt the Roosevelt drive win unemployment insurance, adequate relief, can stop advance of fascism, prevent war, break down race discrimination, and win a decent living standard for the masses

AGRICULTURAL WORKERS! For you May Day means a protest against the anti-strike laws adopted in many California A fight against the 15 to 20 cents per hour wage, the contract system, the unsanitary conditions in the camps, for the right to organize in your own Cannery & Agricultural Workers Industrial Union, for the right to relief, and for enough wages to give your family at least a decent standard of

MARINE WORKERS! For you May Day means to demon-strate against the boss controlled company unions, such as the "Blue Book", against the latest shipowners slave code, for hiring through your own unions, abolition of the Fink Halls, and against the strikebreaking Arbitration Board. A powerful May Day demonstration on the waterfronts along the entire coast will be the best way to show that you are determined to face the shipowners as a unit. Sinclair has spoken a few gencist butches of Germany from a safe distance. But Sinclair and his lieutenants have taken part no demonstrations against the Fascist terror; they did not add their weight to the mass protest which saved Torgler and Dimitroff; they take no part in the fight to save Thaelmann from the Fascist axeman; they raise no funds for the victims of German and Austrian fascism. Sinclair merely speaks a mild word against Hitler and goes on to damn the militant workers and the Soviet Union in the same breath, saying "Both, Commun-ism and Fascism mean bloodshed and destruction." Only the Communist Party leads the militant fight against Fascism.
