ABOUT BRIBE Decision of Seamen to Return to Ships Under Present Set-Up Puts Shipowners Squarely on the Spot

#### BULLETIN

SAN FRANCISCO, Feb. 3.—To devote their full effort in the fight to maintain their charter and their union, the membership at the headquarters branch of the Sailors' Union of the Pacific last night adopted a resolution which calls for the steamschooner seamen to return to work under the current agreement.

Not a single dissenting vote was cast by the 1200 members

Aaron Sapiro, who has been officially designated by the union to carry out the legal phase of the fight, won the membership's confidence with his inspiring plea for full rank and file support to fight until the charter and the Sailors' rightful property is returned to them.

The decision of the membership to express their willingness to return to the ships under the current agreement leaves the issue squarely in the lap of the shipowners.

The officers and delegates of U. S. INQUIRY IS the 34th Biennial Convention of the United Mine Workers took a definite stand against the Executive Council of the American for Industrial unionism, when the Federation of Labor in the fight Convention instruced John L. Lewis to spread the cause of unionizing the mass production workers in a series of a nation-wide radio speeches.

The convention also instructed the Executive Council to prepare to campaign for a "social justice" aniendment to the U.S. Consti-

Upon hearing the report of the River Bar, in which the entire committee on officers, that "We believe there is no definite assurance that the districts can govern themselves," scores of the delegates with definite instructions from their locals took the floor to demand the immediate. testoration of the right to elect their own district officials.

#### DEMOCRATIC ELECTIONS

"We are qualified to elect city, county, state and national officials of our government, we are also qualified to elect our national union officers but when it comes to selecting our own district representatives we are said to be not qualified," declared Will Houser of Local 1116, Paris, Arkansas, as rounds of applause greeted his speech. "The return of local democracy would be the greatest deed done in the history of the International.'

We stand for the election of four Federal judges by the people we are not allowed to elect wn district officials," stated W. J. Harris of West Virginia.

#### FAVOR FRAZIER BILL

Strong sentiment was expressed in favor of the Frazier-Lundeen bill for adequate compensation for the aged and unemployed.

Speaking on behalf of the largmest local union in the United. John F. Sloan of Local 5509, demanded the endorsement of the Bill as the only specific legislation which would give real social security. He said: "Out in our community we have seen no real benefits from the Roosevelt So cial Security program. It is admitted to be totally inadequate to the needs of the aged and unemployed. It does not put the burden on those able to pay through graduated income tax.' LABOR PARTY ISSUE

Prominent place in the Convention spotlight will be the Labor Party issue. One of the most striking expressions for such a party came from Bicknell, Indiana. Its neighboring city Terre Haute, was cited as a glaring examble of the need for drastic political change. Here, it is charged a Republican Mayor and Democratic governor were responsible for the notorious martial law im-

posed upon he city. From Local 2519, Blaine, Ohio, came a resolution averfing that "No section of the labor movement knows better the need for such a party than the coal miners who were shot, jailed clubbed, ridden over by horses and had vicious injunctions served on them by both Republican and Democratic parties."

Other resolutions stressed the "growing danger of fascism" and point to the fact that "several | states have gone on record as favoring a labor party."

#### INDUSTRIAL UNIONISM

Industrial unionism was specifically approved in numerous -resolutions which okayed the participation of John L. Lewis in the Committee for Industrial Organization

Political and class war prisoners are not forgotten. A renewed fight for the freedom of .Tom Herndon is pushed forward in general plan of attack. He of the proposals of not a few locals. ASK INVESTIGATION The action in support of a congressional investigation of the shipowners' conspiracy against the maritime unions was taken when the delegates voted by an overwhelming majority for a resolution introduced by Harry Bridges, progressive leader of I.L.S. 38-79. A move to kill the resolution

by Vandeleur, president of the council, who atetmpted to refer the resolution to the Executive Board, was promptly spiked by

VANDELEUR WEASELS Vandeleur in his move to throttle the resolution claimed that his objection was based on the section denouncing the vigilante tabloid sheet, The American Citizen, as an organ of the shipowners and demanding an investigation of the paper. When pinned down by Bridges Vandeleur stated, "the resolution endorses a whereas the chair knows nothing about . . . the part I object to is the part referring to

some paper." Bridges pointed out everyone in San Francisco but Vandeleur had seen the paper, 100,000 copies of which flooded the city last Wed-Mooney, J. W. McNanara, the nesday, and that the paper was Scottsboro boys and Angelo a definite part of the shipowners' fered, however, to withdraw the

section dealing with the paper. The Council thereupon adopted the resolution unanimously except

the Vandeleur-Casey machine. BRIDGES SPEAKS

In speaking on the resolution, Bridges emphasized the fact that the plan of the industrialists to smash organized maritime labor was also aimed at all organized labor on the Pacific Coast. The employers are opposed to the American Federation of Labor as a whole, and plan to break it down, he said, they will not stop when they move in on the waterfront unions, they will follow by attacking other unions on the West Coast. This interpretation was echoed by most of the dele-

The American Citizen which figured in the Council discussion has the cuphonious by-line, "Published in order that Fascism may not become necessary to prevent Comnunism from becoming a reality," and displays in a prominent manner the union label. Yet its entire pages are given to vitriolic and slanderous attack against the progressive unions, and gives addresses of union leaders in an outrageously provocative manneran invitation to vigilantes!

Copies of the terror-provoking sheet were distributed all over San Francisco by a regular distributing agency-conclusive evidence that the paper is well financed. The editor is the ex-Army officer who several weeks ago blasted at the "reds" in Hearstian manner, blaming them for a leak in the flue of the stove and charged a "plot" to asphyxiate his children.

The Sailors' Union of the Pacific, , at a special meeting, demanded that the union label of the paper be investigated and if cases in workmen's compensat for the small bloc dominated by bona-fide that it be-revoked by the proper body, as the paper in undoubtedly a shipowners' organ.

Leslie was severely burned but will live, and Sam's wife, Arlene Jones, was also burned in the tragic fire. A large part of the furniture was destroyed, and all

the rest was damaged by water. Responsibility for the death of Esme lies directly on the relief administration heads, who had refused to obtain gas and electricity utilities for the family, forcing the Jones' to cook in the fireplace. The public utility companies had turned off the gas and electricity for nonpayment of bills.

A mass funeral, in which unemployed workers will participate, will be held Monday at 2 p. m., with services at Evergreen Cemetery Chapel, at Brooklyn ave. and Evergreen street.

LOS ANGELES, Jan. 31. Three hundred and fifty more administrative workers had been fired here today, by order of Roy W. Pilling, director of Los Angeles County Relief Administration, as "part of the drastic curtailment; of relief expenses."

At the same time, Pilling announced 9700 cases had been transferred to WPA jobs and therefore cut off LACRA relief.

Starting February 7th, Pilling said he intends to have LACRA relief checks distributed twice a month, instead of weekly as at present.

Further starvation for relief workers was indicated by Pillir arbitrary edict that starting 1 day, no further emergency food orders will be issued and workers will have to wait for their checks...

"Except in cases of extreme emergency," Pilling announced that relief officers will only be open between the hours of 8 and

WASHINGTON, D. C., Feb. 3. -Over-awed by their own "Frankenstein" charter-pulling creation, Olander-Scharrenberg and the rest of the shipowners' agents who control the International Seamen's Union Convention, desperately strove to maintain their grasp upon the East Coast rank and file seamen who are overwhelmingly voting to strike rather

than renew the 1935 agreement. The East Coast shipowners gave the reactionary ISU District Committee a "breathing spell," when they graciously conceded a fifteenday grace for the old agreement which expired on Jan. 31.

Crews of a dozen ships at New York harbor have held meetings and sent telegrams to the convention demanding rescinding of the action taken against the 7000 members of the Pacific Coast Sail-

ors' Union District. STRIKE DEMANDS GROW With the charter revocation

act as a further incentive the District Committee and the shipowners realize that the demand for a strike will be voiced in the majority of the ballots cast by the East Coast seamen.

Unable to handle the Convention, pending the outcome of the legal proceedings

the Pacific, and still retain their grip on the rising militancy of the Atlantic Seamen, the fifteen days' grace is obviously a mov: of the shipowners to stave off any East Coast strike until th reactionary "leaders" can safely break up the Convention and return to their ports to either behead or seize control of the approaching struggle.

"NATIONAL" COUNCIL

Meanwhile the eighteen self-appointed delegates who are in the najority at the Convention, realizing the vigorous demands being made by the Atlantic seamen for an East Coast Maritime Federation, are setting up a "national maritime council" to confer with the national representatives of marine and shipping interests in the hope of effecting a national agreement on wages, hour and working conditions.'

The "new organization" is to include the I.S.U. group, Marine Engineers' Beneficial Association and the Masters, Mates and Pilots' National Association. The longshoremen and radio operators are completely ignored.

The demand for Union hiring hall is completely ignored and in all probability if the shipowners and their hard working I.S.U. District Committee is unable to stop the impending strike, then an "council."

THE PLOT THICKENS NEW YORK.—Shipowners here

for a national meeting to discuss "current labor problems" are in actuality attempting to coerce the operators to join with them in Coast maritime workers.

Forestalled by the expose which was made by the San Francisco District Council of the Maritime Federation, the operators dare not put their union-busting plan into effect, with two of the largest and most powerful companies intent upon living up to their agreements.

The two most notorious wagecutting exploiters with the dubious "fame" of being the rottenest condition ships running, prior to the '34 strike, the Grace and Luckenbach have found it more profitable to operate their vessels under union conditions.

"Economic pressure" is being threatened against these two outfits by the chambers of commerce and the industrialists who are suggesting these two recalcitrants feel the heat of a boycott by the shippers to whip them in line.

The Panama Pacific Line is also being urged to join the gang in the fascist campaign.

The collusion between this meeting and the I.S.U. misleaders is obvious with the report that a committee from the shipowners gathering will "confer" with Willagreement may be offered to this iam Green on the "maritime prob-

The Hearsts, Chandlers and Manchester Boddy's are fulfilling their role as the mouthpieces of big business by creating a campaign of turmoil and confusion n the minds of the workers and middle class people. Their role as industrialists and agents can be traced through their entire campaign of lies against workers organizations. LABOR TRAITORS

are busy creating further confusion in the minds of the workers who are ready to struggle against sweat-shop conditions, for the right to organize for a decent standard of life.

POLITICAL SHYSTERS

### The Western Worker Is a Major Weapon of Labor

BIGHT-PAGE-WESTERN WORKER

struggle is sharpening, and how much the working class needs the Western Worker. And yet during the month of January, the Western Worker War Chest Drive has just reached the half-way mark, and is seriously lagging. Every Party member, every reader and friend of the Western Worker, should be 'aroused to action, to see that the drive for funds is a task of first-class political importance.

#### WAR CHESTS

The shipowners have a war chest. They have gathered a huge fund, out of the profits they have wrung from the working class, in order to launch an attack on the maritime unions. in order to finance fascist vigilante gangs to use terror against the whole labor movement.

The American Liberty League has a war chest. The Morgans, duPonts, and Hearsts are backing its reactionary drive on the liberties of the American people with all the huge resources of Wall Street. Their campaign in-

too late yet to win the mimeograph machine, mimeoscope and other equipment. You have not only on life the last week and intend the opportunity of doing your share to make the Western Worker a more effective weapon in the coming struggle for better conditions and in the fight against war and fascism, but you have also the opportunity of winning needed equipment for your section.

#### CIRCULATE LISTS

Circulate your collection lists among friends, shop mates and fellow workers on the job and get them to donate to the Western Worker. Speak for the Western Worker at your mass organi zation and take up a collection. Have your unit arrange a house party, which is the easiest way of raising funds, and select a leading comrade to speak on the role of the Western Worker.

RAISING THE \$7500 WILL MEAN AN EIGHT-PAGE THE UNITED FRONT

The burning need of the hour is to meet this danger with a united people's front. Not by faith in Roosevelt, who cannot and will not stop the advance of the forces civil rights of the people, through the building of a Farmer-Labor Party on a local, state, and naground, all trade unionists, So-Communists in the organizations of the workers, farmers, and the middle class. The fight of the Communist Party for the united ront is meeting with a powerful response everywhere.

That fight would be strengthened one-hundredfold on the West Coast if we had our most powerful weapon, the Western Worker, coming out daily. That goal can be reached within a year if we double and triple its circulation. In the meantime, our immediate objective must be to enlarge the paper to eight pages, and improve its contents

### EAST BAY STRIKERS REALIZE VALUE OF A LABOR NEWSPAPER

Western Worker Report of Casey in San Diego a Timely Warning for Alameda County Labor Council Progressives

In the last few weeks, the direct results of correct use of the Western Worker here in Oakland are obvious. That splendid front page editorial on the condition of the Epic movement, which showed the mistake of capitulation to the McAdoo machine, and showed the way out to the Epics, will help in strengthening the sentiment for a Farmer-Labor Party.

Many comrades on WPA utilzed the Western Worker to show their fellow wheelbarrow pushers what was going on in Los Angeles. This was the first news the workers had of the successful strike and demonstration in Los Angeles and had a direct effect on the growth of the Public Works and Unemployed Union here. The capitalist sheets did not have to word about this struggle.

Another Western Worker scoop was the news of Joe Casey's high handed action in San Diego. The rank and file of the Alameda Central Labor Council immediately got busy to make sure that Casey is prevented from carrying on the same splitting tactics here. Only the Western Worker had a true story of what took place.

Comrades who have been taking the Western Worker to the workers on strike against the Moore Shipyards, know how popular the Western Worker is. Despite the fact that the papers were not the current issue, and were to be given away, some workers wanted to pay for them.

#### MORE CIRCULATION

At no time was it as imporleast ten times our present circulation of the Western Worker.

There is a wonderful way to popularize the Western Worker. The best way to reach new people. Write an article to the Western Worker containing news about your shop, factory, trade union, etc. Then contact everybody concerned, or if this is not possible get somebody else to do it. Experience shows that over half of the workers approached will buy the Western Worker. Most of the workers will buy the paper because they want to read the article that directly concerns them, but they will also read the articles about the Farmer-Labor Party, the struggle against war,

Olga Knopf is a psychiatrist, and has made a study of middle theniselves, with more or less success, to the "home-or-career" problem.

She lavs considerable stress on the individual self-help method of curing mental readjustments, but factors.

Here are a few passages: "At present women are certain-

ly in a stage of transition, even more unsettled than their situation would naturally demand. They wish to take advantage of the new status but they are not yet free from the old standards of judgment. The ideas of a past order of society die hard...."p.

"The growing facility of divorce, the growing economic independence of women, has dethroned marriage from its position as the absolute, single, and crucial value of a woman's life." Pg. 260.

"The only country in which women are freer than in America is Russia, where the social order puts men and women on precisely the same basis and gives them equal rights not only on paper but also in practice. Educational bpportunities are the same for both sexes and the choice of work depends only on fitness and preference...No special prestige is attached to any line of activity and women take no pride in appearing as masculine as possible . . . The woman who wishes equal rights and equal responsibilities for her sex cannot help but be cheered, whatever her poli-

tics, by this particular aspect of

Soviet Russia." Pg. 283-4. She deplores the present status of women in Nazi Germany and says, "Almost all the rights to self-determination which women had won in Germany were taken mithem. Every guarantee that they could see to their own fate was destroyed....And did the new order protect woman after her marriage?...Does the government undertake to guarantee that the children will always be provided for and the mother will never be in a position to feel, ... If I had kept my job, I should be far better off?"...If the government had planned for the future of married women who gave up their jobs, it might be thought that they intended, however mistaken their methods were, to improve the lot of women on the whole. As it is, we have no choice but to regard their actions as a savage and heartless attack on women . . ." pg. 284-5.

#### BREADWINNING BURDEN INCREASING

WASHINGTON.-(F1') -Women are carrying more and more of the burden of supporting the family, Miss Mary Anderson, director of the Women's Bureau pointed out in her annual report to Secretary of Labor Perkins

Data on the increase in the number of women sharing in family support is lacking, Miss Anderson said, emphasizing the need Druid's Auditorium, 44 Page to collect such information.

According to the 1930 census more than 3 million of the 10, 750,000 employed women in this country were earners in families of two or more persons. One million were the heads of such families while 500,000 were the sole breadwinners.

## Negro Work

By Pettis Perry. (Los Angeles Section)

For many years, our party has been concentrating in the Goodvear subsection, where the argest part of the Negro population lives. Time and time again, we have raised the ques-

tion of penetrating the great

mass of the Négro people. In the Scottsboro Action Com mittee, a committee organized iollowing the frameup of the Scottsboro Boys for the purpose of penetrating the many Negro churc'nes and organizations. We often discuss the question of Negro leadership in this work We succeeded, finally, in getting a very intelligent Negro woman who became secretary of this committee, and who was connected directly, or indirectly with between six and ten or ganizations with regular representation to the Scottsboro Action Committee, consisting of

This Comrade belonged to a unit that had an attendance membership of five. This unit decided that they needed an agit-prop, so they mechanically assigned this Comrade to the job, in spite of all the protest voiced by her with the result that she attended one agit-prop meeting and became inactive altogether. All of these organizations were lost. The Scottsboro Action Committee ceased functioning because no one was immediately available

from 30 to 60 delegates.

Another situation we had:-We organized a section of the I. L. D. One Comrade was assigned for Literature Agent of he Section, which was composed of six branches. From 150 to 250 Labor Defenders and much bther current literature was being sold, mainly in the Negro erritory. At least ten drug stores were handling literature for us. This Comrade was proposed for the job. Tills assign, ment, he refused. He was then called before the sub-section bureau, and had the job forced of the Party, and out of the same time, build up a more

I believe what is true of the Goodyear Section in Los Angeles, is true of many other units in different parts of the country. If the units, instead of removing these Comrades, had tried to guide their activity among the masses, many new workers could have been the party brought into through their work. And instead of losing two valuable Comrades, they could have been developed into real leaders of the working class. In-

## Sonoma SECTION **SPEAKS**

Sonoma Section, with a quota of \$75 in the Western Worker drive has already over-fulfilled its quota by 20 per cent. This is in spite of the harder conditions of work since the severe terror our section went through.

The quota of \$75 was looked upon by our section committee as a rather high one, so we decided to begin work immediately in order to try to fulfill it. We called for plans to be submitted to the Section Committee from each unit on how they would go about raising funds.

This was done with the result that Cotati unit organized a house party already in November at which it raised its quota. This spurred Santa Rosa unit on to having a series of card parties at which a turkey was the grand prize. Having a prize for the nighest score of the whole series kept up interest so that the sympathizers came to each party. In that way S. R. unit, which has a large percentage of unemployed, was able for the first time to raise its quota. Then Petaluma unit with a good

#### PANELS OR GROUPS?

Heretofore, we have taken it for granted that all radicals and progressives believe that the socialized or group-medicine form of organization is far superior to the antiquated form of individual practice now in existence. However, we discussed the matter with probably the most progressive group of physicians in the progressive city of San Francisco the other evening and we found that they are all firmly convinced the presentday individualistic system is the best. The discussion hinged around the question of whether medical relief by the government should be carried on by means of clinics or by using the large numbers of physicians' small offices and laboratories, now in existence, through the panel system.

#### SEEK GOOD CARE

During the discussion, it was brought out that none cared which system cost the government the most, but that the patients should receive complete, scientific medical care and that the doctors should be fairly paid. We point ed out, however, that wherever costly apparatus was set up such as the SRA panel system in Oakland, the relief officials were always yelling about the expense and using this as an excuse to cut down on the quality of medical care. Radicals and progressives must always campaign for the most economical system, for i an uneconomical plan does not work very well, they will be blamed if they have backed the

In order to clarify the question as to which system is the most economical in comparison to the results which it obtains, we have reveiwed the various socialized medical groups throughout the country. The most instructive example is that of the health service offered by the Cornell University Clinic for the college stu dents. This included a thorough examination, free hospital service, and minor treatments. The student pays \$10 for the school year. He receives on the average more than \$5 worth of hospital care and five consultations with physicians. If the student paid for all this on a fee basis, the least he would have to pay would be twice the ten dollars. On the other hand, the well-qualified doctors in Becker and his comrades have and his seven comrades, will ap the clinic are paid much better signed affidavits telling of the pear in court to testify for the de- than the average physician in private practice, must work but six hours a day, and have three month's vacation a year, with sal-

#### INCOMES HIGH

According to the Comm the Cost of Medical Care, ha ncomes of physicians in twen seven private group clinics stut ranged from \$5000 to \$17,000° year with an average of \$10,000 This compares very favorably with 35 per cent of all doctors in the United States who receive less than \$2500. Although the cost to the patients in the clinics is no lower than in individual practice, the quality of the service was much higher. These two examples should be sufficient to show that socialized medicine is, much more economical than individualized medicine.

The reason for this is quite clear. Imagine the present medical set-up as applied to the repair of automobiles. Ignition trosble would be treated by an ignition specialist on the East Side, tire trouble on the West Side, engine trouble on the North. Each of the mechanics would keep his own books and charge a separate fee. The repair of automobiles would be immensely more costly and inconvenient than it is. The same is true with medicine, Great savings can be made by various. groups of doctors working very closely together and using the same space, equipment and staff

In the case of the WPA work ers who do not receive enough to pay for medical service, they should campaign for either sufficient wages to pay sickness-bills, or for a form of socialized med-

#### Meet the Employers' Attack With United Ranks!

A storm of protest has been aroused throughbut the labor movement on the entire Pacific Coast against the attacks launched against the militant maritime unions by the shipowners, assisted by the splitting tactics of the I. S. U. officials and their hand-picked machine controlling the convention in Washington.

The Central Labor Councils of San Francisco and Oakland have voted to endorse the demand of the maritime unions for a public Congressional investigation of the shipowners planned lock-out. Even the Scharrenberg-controlled LS.U. convention was forced to take similar action.

The Central Labor Council of Seattle protested the action of the I.S.U. convention in revoking the charter of the Sailors' Union. The San Francisco Labor Council last Friday night refused to unseat the delegates of the Sailors' Union, although this was demanded by Green and Olander. Other trade unions and Central Labor Councils are taking similar action to rally to the support of the maritime unions.

The members of the Sailors' Union have stood solid under these attacks, and are fighting to remain a part of the L.S.U. and the A. F. of L. They have refused to be provoked into any action lading toward an independent union, realizing that the shipowners and the Olander-Scharrenberg clique would like nothing better; on the contrary, they are determinedly fighting to retain their charter, and are getting the backing of organized labor in this fight.

The West Coast I.S.U. branches that are being ordered to withdraw from the Maritime Federation, are doing so under protest, but are continuing to maintain fraternal relations and cooperate with the other unions affiliated with the Maritime Federation, with the understanding that as soon as the necessary changes are made in the Constitution of the Federation that will satisfy the technical requirements of the I.S.U. and the F. of L., they will again re-affiliate with the Federation, which is in full conformity with the principles of the I.S.U. and the American Federation of Labor.

The fight of the maritime workers against the attacks of the employers and the I.S.U. officials should receive the support of every trade union and Central Labor Council. Labor must present a solid united front in defense of the maritime

#### The Fascist-Vigilantes Emerge Openly As Tools Of the Shipowners

The vigilante-fascist agents of the reactionary employers lost no time in launching their filthy provocative attack on the labor movement and its progressivt leaders following Harry Bridges' exposure of the secret plan of the shipowners to simultaneously attack the maritime unions here and in the East. The vile sheet called the American Citizen, attempting to masquerade behind patriotism and civic pride, brings forth a monstrous spew of lies, misquotations and open incitement to violence.

It is significant that the American Citizen's attack is primarily launched against the waterfront workers, their popular leader Harry Bridges, and the Communist Party and its organ, the Western Worker. Its scurrilous "whisperings" of "official Communist secrets" would be laughable except for the fact that many honest workers are as yet unable to see through these disgusting lies, although few trade union members are to be found who will disagree with the popularity of progressives who are continually under fire as "Communists." This has come to be a tribute to any working class leader as significant of his honesty and ability.

The American Citizen made its appearance in a 100,000 edition, and was distributed widely by professional means. There can be no doubt as to exactly who is behind it-those like the waterfront employers and the Chambers of Commerce who hope to benefit from its effects. Furthermore, its appearance times with the moves made by reactionary union officials to lift charters, tie up funds, suspend progressives or otherwise eliminate the leaders who have built the unions and aided in winning better conditions.

We are answering this 100,000 broadside of fascism-vigilantism with a tabloid edition of the Western Worker for the widest possible distribution this week-end.

Comrades! Sympathizers! Progressive trade unionists! Anti-fascists! Prepare to handle an appropriate number of these newspapers, which will cover the recent developments in the war between reaction and progress, vigilantism and preservation of trade union democracy as affecting the entire Pacific Coast. Get your mailing lists ready. Prepare to mobilize for house-to-house distribution. Appoint agents to attend all mass meetings. Get in touch with Workers' Bookshops and Communist Party headquarters in your locality and order your quota!

#### Send Delegates To the Mooney Conference!

The historic fight for the freedom of Tom Mooney, veteran political prisoner in the United States, has entered upon a new phase with the calling of a conference next Sunday, February 9th, at the Labor Temple, under the auspices of the San Francisco Central Labor Council.

Already the wide response proves the tremendous interest in all labor unions in achieving the freedom of the man who is the victim of the most flagrant frame-up in the history of the class struggle. The reason for this is obvious-the concerted attack of leading capitalists and their henchmen on the labor movement, an attack clearly evident in San Francisco and San Diego in recent weeks. Tom Mooney was framed in just such a drive.

Members of trade unions in the Bay area urged to raise the matter at union meetings, so that every union will send their quota of five delegates to Sunday's conference.

Make this the beginning of a last tremendous effort for the complete and unconditional freedom of Tom Mooney!

BIRMINGHAM, Ala., Feb. 1.-Ernest Merriwether, young Negro errand boy arrested in Decatur L. A. Red Squad and charged with smuggling a knife to one of the Scottsboro boys, was released last Wednesday. This substantially deflates the melodramatic "escape plot" story with which Sheriff Sandlin tried to whitewash his cold blooded shooting of Ozie Powell.

Statements of the other boys in the car when the shooting took place revealed that Ozie, after hours of grilling, abuse and threats by deputies, struck back in defiance. The incident was brief. Ozie was provoked to a point where his temper blazed, but quickly subsided when the other boys pulled him back.

It was after this incident was all over that Sheriff Sandlin stopped the car, calmly got out in the road, and blazed away at the helpless Negro boy.

The united front Scottsboro Delense Committee in New York City has demanded Federal inves tigation of the incident and that the boys be placed in Federal custody for protection.

Sandlin declares he will seek an indictment charging Powell, Wright and Norris, the three boys who were in the car, with attempt to murder.

#### Some Good Work By A Live-Wire Unit In Los Angeles

Work among the masses of workers-this is the secret of proper recruiting, on the basis of the activity of our unit since Sepember 1, 1935. Twenty-one new Party members have been recruited during this period, of which a majority have been good, working class elements, first tested in mass organizations.

The unit was born as a threeway division of two previous units and started with nine members. As a plan of work up to January 1st, the unit resolved as follows:

To recruit nine new members for our Party, including one trade unionist and two Negro workers; to make every member a regular dues-paying member: to issue at least one leaflet a month; to have regular educationals in the unit; to do Red Sunday work at least once a month; to have a mimeograph; to stabilize the Western Worker bundle order at 12 copies each

#### RESULTS

Results were:

Twelve new members recruited by January, including one trade mionist. No Negro workers were recruited, and eight of these workers were recruited by two mempers of the unit, both Section functionaries, which was a weakiess. Dues were irregular, due to failure to reorganize our squad systems periodically and to transfers of unit members. Only one leaflet was issued—on Armistice Day—and no mimeograph was acquired, although sufficient money was raised for this purpose. The unit has been waiting to get a mimeograph at a "bargain" price.

Educationals were conducted regularly, and through this period most of the comrades developed to where they were able to contribute vitally to the dis- it is; our mothers nourished it cussions, mostly around the ques- with the tears they shed over the tions raised by the Seventh World troubles and tragedies of rearing Congress and the November Plenum of the Central Commit-

ern Worker was stabilized at about 16 copies each issue, plus 11 Saturday Daily Workers. Several times, however, the literature agent failed to secure the Monday issue of the Western Worker for the unit. About 100 copies of Dimitroff's report were sold.

NEW QUOTAS Starting 1936, the unit was as-

igned quotas by the Downtown Sub-section of four new recruits. \$17 cash for the Western Worker, and eight subscriptions to W. W. Three weeks later the unit had accomplished the following:

Six recruits of unusually good composition, five of which were recruited at an open unit meeting; nine subscriptions for the Western Worker; approximately \$18.50 in cash for the Western Worker drive.

The following plan of work was then adopted for the period up to March 1st:

Four new recruits, including one trade unionist, two unemployed, and one Mexican worker: increased quota to \$34 and 12 subscriptions for the Western Worker: stabilization of the Western Worker bundle order at a minimum of 20 copies of each issue; Red Sunday work on one block every Sunday; sale of 25 copies of Dimitroff's report and of the Gorman-Lewis pamphlet to trade unionists; to build a functioning fraction in the neighborhood Townsend Club, largest in the country; acquiring of a mimeograph by March 1st; issue of at least two leaflets per month; the getting of at least two comrades into trade unions.

However, because this unit has merged with two other units for a six-weeks' experiment in an enlarged organizational form, as suggested by Comrade Brown's article in the November "Party Organizer," this plan is being expanded and will be reported on

#### WEAKNESSES

The unit has improved, but has weaknesses which this plan of work was intended to correct. For one thing: the unit buro met in regularly; this was due to the fact that the organizer and agitprop are section functionaries and loaded with many other tasks. However, it seemed necessary at the time for these comrades to undertake leading positions in the unit. New forces recruited are of Unit A-6, Downtown Sub-section. good caliber and should soon be

## Who Are The Americans?

By Earl Browder.

The question asked of Communists more frequently than any other, if we can judge from the Hearst newspapers, is this:

"If you don't like this country, why don't you go back where you came from?" The truth is, if you insist on knowing, Mr. Hearst, we Communists like this country very much. We cannot think of any other spot on the globe where we would rather be than exactly this one. We love our country. Oour affection is all the more deep in that we have watered it with the sweat of our labor-labor which made this country what babies in a land controlled by profit and profit-makers. If we did not love our country so much, Only one Red Sunday was held pethaps we should surrender it to in the unit territory. The West- Wall Street Wall Street.

Of course, when we speak of our love of America, we mean something quite different from what Mr. Hearst is speaking of in his daily editorial diatribes. We mean that we love the masses of the toiling people. We find in these masses a great reservoir of all things admirable and lovable, all things

prepared for leadership in the

Work has been lax in the neighborhood, and as a result, all new members came from the Public Works and Unemployed Union and the I.L.D.

This recruiting from mass organizations is good, but at the same time the unit has not been the political leader in the neighborhood. Only two unit members are in trade unions. Nothing has been acomplished in United Front work, or in building a Farmer-Labor Party. The comrades are nearly all engaged in mass work -chiefly in the PWUU-but this work was not sufficiently directed

by the unit. Membership in the unit at the time of the merger, included 21, many having been transferred to other units, sub-sections, and sections in the district. No members have dropped out of the Party from this unit.

#### **OPEN MEETINGS**

The unit has one "tip" to pass on to other units. In conducting open unit meetings, we had the agit-prop talk for about 45 minutes on the structure of our Party; how it conducts mass work, and how it seeks to prepare the working class for its historic mission of destroying capitalism and setting up a workers and farmers'

Following this, the floor was open for questions and discussion. Visiting contacts were thus able to ask questions bearing on their individual problems in relation to joining the Party, and many of their previous misgivings and doubts as to the Party were thus allayed, and they were easily recruited.

The first open unit meeting we had was devoted only to discussion of a broad political problem and did not bear on local problems and conditions, with the result that this meeting was fruitl less.

The following article by Earl Browder, general secretary of the Communist Party of the United States of America, is one chapter from a book by Browder to be published soon. Because of its length it will be published in two installmentts, of which this is the first. It represents an effective and extremely logical answer to the question often heard these days: "If you don't like this country, why don't you go back where you came from."

WE SOVIET WOMEN, by Ta tiana Tchernavin (E. P. Dutton and Co.). \$2.50.

By Ella Winter.

Hardly had Hearst finished running serially Madame Tchernavin's first anti-Soviet book, "Escape From the Soviet," when she comes out with another, "We Soviet Women." The title is misleading. This book is a collection of sketches of non-Soviet women -"former" people like the authoress herself, gypsies who didn't thrive in a land where cabaret and loose night life didn't come first any more, petty, gossiping, silly women, bureaucratic officials, girls who didn't understand wharwas happening under their ver eyes, and who would sleep with man for a bar of chocolate. Every one knows such exist in the Soviet Union; the Soviet newspapers are full of diatribes against them; the two satirists here last month, Ilf and Petroff, spend their lives running down and exposing in Prayda the stupidities and vanities, bureaucratic acts and pettinesses that Communists are the first to scold about.

But Madame Tchernavin sees nothing but these; Soviet Russia in her eyes is nothing but a collection of mean, dirty, ignorant, cruel, drunken, rapacious, smelly, immoral people, who wilfully upset a lovely regime in which she and her friends had lovely clothes and houses and food and books and music and sweet flirtations and "gay, lighthearted" gentlemen. friends. She tells fifteen individuc cases-exactly fifteen-and generalizes about 170,000,000 people. It s small wonder, if that's how she behaved at home, that the GPU finally got sore and stuck her in jail. From her petty and meansouled carping at the difliculties Communists are the first to acknowledge, and which they are heroically trying to do away with, it's a wonder they threated her as well as they did.

In one spot she even dares say that the police under the Czar were so nice and thoughtful and the prisoners so well-treated, while look at the GPU now. Let me, who is not a Russian, make 9 hold as to suggest to waden Tchernavin she read such Russian classics as Dostoyevsky's "House of the Dead," Very Figner, Our American giants of 1776 Vera Zassulica and so on, to disunder the Czar.

These are some of Tchernavina's revelations:

"The Soviet regi citizens " (p. 221).

"Deafness was hereditary in her given by the American Revolution. family and the conditions of Sol viet life had obviously made it much worse" (p. 172).

The Soviet regime evidently invented all diseases, uglinesses, lack of intelligence, death and life . . .

"Beauty affects Communists no less than it does capitalists" (p. 102). "Writing is sheer waste of time" (p. 10\$)—in U.S.S.R. that is-obviously not in America, for ladies like this authoress.

Having done her unpatriotic and ungenerous best to harm her homeland in foreign eyes, the author comes to America-the America of the murder of Sacco and Vanzetti, of 20,000,000 semistarving, of one child in six undernourished (official Washington figures), of kidnaped and murdered babies, radio crooners, of the King Lehrs and Hollywood morality, and for nice refined American dollars gleefully lies about the first scientific, moral, clean, just and decent society in the history of the world. Bravo, old Russian intelligentsia. Now do you unde stand why you had to be liquidated?

#### British R.R. Unions Back United Front

LONDON, England.—The national executive of the Associated Society of Locomotive Engineers and Firemen recently passed a resolution declaring that the union will "support the affiliation of the Communist Party to the national Labour Party." This was contained in a letter from John

Bromley to Harry Pollitt. This is the first time a national executive has taken such a sta although dozens of local unions are ardently working in support of the Communist Party's united front fight, especially since the recent election, when the C. P. campaign work substantially aided

in electing Labor Party candi-
