## Young Worker Expelled from Military Training Camp for **Opposing Scab Education**

(Special to the Young Worker)

CAMP CUSTER. Michigan.-Joseph Plotkin has been expelled from the Citizen's Military Training Camp here, charged with being a member of the Young Workers League.

There was no basis for the expulsion except the suspicions of the officers that Plotkin was

a radical. Their suspicious were aroused first when Plotkin took the side of evolution against that of religion in an argument with students in his company. These students told the officers of his wild ideas, and as a result he was carefully watched from then on.

They decided to take action against Plotkin when he objected to certain statements of the officers in the Citizenship Training Courses. In these statements the officers had called upon the recruits to fight against the trade unions "which must be smashed" and had made many other appeals to the students of a definite anti-working class and strikebreaking character.

Once they found that Plotkin was hurting the effectiveness of their lying propaganda, they decided to get rid of him as quick as they could, and in their haste did not even bother to take the necessary legal steps.

He was called before a Major Andrews and a colonel, with lieutenant Evans and Krutheur acting as prosecutors. This "court" decided to expell Plotkin from Camp Custer because he "against capitalism" and "for the convenience of the government."

Lieutenant Evans told the court that he believed in the constitution but that "free speech is going too far." The only evidence that the officers had to show was a personal letter to Plotkin which they had stolen after searching his baggage. Plotkin was discharged from the camps without even the customary statement being handed him, as is the customary procedure.

Joseph Plotkin was a member of Co. B. 2nd Infantry, and we are printing a story of his expulsion which has been sent in to us by another recruit in Company B.

(Special to Young Worker).

ZEIGLER, IIL-The death of Mile Sarovich, active member of the Zeigler local of the United Mine Workers of America, will not stop the fight here between the militant miners and the corrupt Farrington officials who have united with the Ku Klux Klan to protect the interests of the mine own-

Mike Sarovich was shot thru the abdomen by a Ku Kluxer named Miss Hargis at a local meeting here Toesday night. Hargis and other members of the Ku Klux Klan had come to the meeting armed along with Lon Fox and Cobb, the Farrington machine officials of the sub-district. These members of the Farrington gang had ome at the request of the company to try and force the men to go back to work, after they had sone on strike in protest against the removal of their local union officials headed by President Corbishley.

Excuse for Action.

The Zeigler miners have long of posed the enemies of the union, fighting both the company and its agents within the U. M. W. A. As a result Farrington and his gang have long attached the progressives at Zeigler and have done their best to remove the fighting officials of the Zeigler local. Last year Henry Corbishley, president of the local, was removed from oceffi but was restored to office by a special election. However the Farrington machine has long been waiting for another chance to launch an attack on the progressives in the Zeigler local, and thought that a dispute which arose recently over the removal of a check weighman, and though the miners were prepared to return to work pending a final settlement with the company, Cobb and Fox used this as an excuse to come here and remove Corbishley.

## Young Workers! Demonstrate on International Youth Day

Youth Day demonstrations are again to be held in all parts of the world. Once more the class conscious young workers gather to struggle against capitalist exploitation and capitalist militarism, to join the ranks of the revolutionary youth, who together with the adult reels of the world will tear down capitalism and bulld up the

Communist society. This year the young workers of this country are faced with great problems. All over the country the bosses are concentrating their eorts to reduce the wages and lengthen the working hours of the workers. The young workers are the rst victims of this drive. The fact that the young | drown the spirit of indepen-

ized makes them the first prey of the attacks of the bosses. Besides this they are used as scabs to break down the standards of living of the adult workers.

Moreover, now more than any time before since the last world slaughter, a new world war threatens the working class. Everywhere signs point to a new war more horrible in its consequences to the workers than can be imagined. The brave struggle of the Moroccan tribes against the French robbers is leading to grave world complications. Hundreds of workers and peasants of France and hundreds of Riffians are being shot down in an attempt to

dence and liberty of the tribesmen and to insure the rule of French bankers. In China, the capitalists of the world are preparing to drown in blood the uprising of the chinese workers, peasants, and students who are heroically fighting against the foreign robbers. Already scores have been killed, and American troops are in the front ranks, by order of the militarist clique, of those who attempt to suppress the upris-

The capitalists of this country will not hesitate to throw hundreds of thousands of young American workers into a world battlefield in a renewed and more bitter effort to establish the rule of Amerlean bosses all over the world.

The fact is that they are actually preparing for such an occasion. The Reserve Officers Training Corps, the Citizens Military Training Camps, 4the military training in the schools and colleges, the growth of the Boy Scounts, the increased money which is being spent on arms and ships -all of these are straws in the winds which show the menace to the young workers -the first to be sacrificed on

the altar of capitalist profit. The Communist movement is carrying on a vigorous battle against exploitation and war, against the capitalist system. Back in the bloodiest days of the last war, it was the revolutionary youth which took the lead in the struggle against any further slaughter

of the workers and farmers. That historical fight is commemorated every year by world wide demonstrations on International Youth Daè.

Today new war endanger the youth! More bitoter exploitation is their lot!

What is the reply of the young workers of America to this danger Will they merely consent to be led to the slaughter or will they go with open eyes, realizing their duty to change the wars of the capitalists into wars of the workers against their oppressors? The Young Workers League calls upon all the young workers of this country to gather in monster demonstrations to express their determination to fight against new wars, to fight conscientiously only in the class war of the proletariat against the capitalist class. In every city in the country let the voices of the young workers ring out with spirit and forcefulness to show the strength of our arms and the willingness

of our hearts! International Youth Day will take place on Labor Day, September 7, 1925. It is the duty of every unit of the Yooung Workers League to organize the young workers on that day for struggle! Nowhere shall the opportunity be missed to demonstrate against imperialism!

### Call to Fraternize—Many Arrests

That is the measure of the success of our French comrades in their antimilitarist propaganda against the war in Morocco. Only last week two Communists were arrested, actually in Morocco itself, and deported for antimilitarist propaganda. Similarly, the Communist mayor of a little French town has been sentenced to six months for a speech in which he called upon the soldiers to refuse obedience and to fraternize with the Riff fighters.

In that word "fraternize!" we have summed up the whole of the anti-militarist propaganda of our French comrades, as indeed it must be of all "You anti-militarist propaganda. fraternize in death-why not fraternize in life?" runs the caption under one of the striking cartoons.

Getting It Across.

But how to get this propaganda across? First of all, thru parliament. In this direction the French Communist deputies have given us a novel example of how Communists can and should make use of a bourgeois parhament as a platform for agitation. There is no that here, to quote Mac-Donald's notorious phrase, that "in parliament it is still a fight of gentlemen." There is no grovelling before the twardy trapping of bourgeois parliamentary "democracy."

" Liebknecht Lives!"

Our comrade Jacques Doriot has in particular distinguished himself, and ne thoroly merits the comparisons of himself with that other great antinilitarist, Karl Liebknecht.

The second way of getting anti militarist propaganda across is nat urally thru the party press. Our comrades in this respect make full use of their great daily, L'Humanite Their cartoons, splash sorties, short snappy paragraphs, streamers and headlines have been admirably done for this purpose. An important feature is the letters from soldiers.

The effectiveness of this form of propaganda is shown by the arres of four ommunist ex-soldiers who pub lished in L'Humanite the other day an appeal to their former comrades in arms to fraternize with the Riffs and so bring the war to an end.

Young Communist Party. In addition special papers for soldiers, such as La Caserne (The Barracks) and Le Conscrit have from time to time been run. The paper of the French Y. C. L., L'Avant-Garde, makes a special point also of antimilitarist propaganda, and, in general, the French Young Communists have been most active in pushing this propaganda forward.

However, parliamentary and press agitation alone is not enuf: anti-militarist propaganda is, from its very nature, bound to take illegal forms. This involves sticking up posters in barracks and camps, distributing leaf-Instead, our comrades in the French lets and pamphlets to soldiers, etc. Where colonial troops were engaged, distinct their anti-war attitude, and our comrades prepared posters and called on the troops to mutiny rather literature in Arabic, etc. Anti-war than aid in the suppression of a little "stickers"—like our Lenin stickers—

The three Communists, Gibner, Kniewski and Rutkowski, fell wounded and several of the police were also injured in the fighting. The Communists were immediately arrested and are being held for trial by court martial under paragraphs 51 and 453 of the old Czar Regime Criminal Code. The sentence is death and the trial has been set for August 19th.

The raids which followed were made in the working class sections of Warsaw, and have surpassed the other orutal raids which have made the Polish white terror so infamous.

Immediately after the raids the Polish Communist Party issued a manifesto that says in part:

#### INTERNATIONAL YOUTH DAY

New wars loom! Worse conditions for the working class, and especially for the young workers, is what faces the proletariat

This year, the revolutionary young workers are once more gathering, in greater numbers than ever before, to demonstrate their opposition to imperialist war and to the vicious campaign of wage cutting and hours lengthening that the bosses are carrying on. In 1915, when Europe was running red with the blood of the workers, the revolutionary youth was the first to raise the banner of revolt against the treason of the social-democrats, sending the message of the proletarian revolution into every trench they could penetrate. Since that day, the first week in September has been set aside as International Youth Day, the day for demonstrating the victory of the workers in Soviet Russia and the aspirations and determination of the workers in their struggle against the bourgeoisie where the latter still rule.

The danger of imperialist war is ever present in capitalist society. But especially at this moment the indications are growing more numerous that war is in the offing. The young workers are again being menaced by capitalist militarism to the point where they shall be called upon to sacrifice the flower of the working class youth in the interests of capitalist rule, to see whether or not this or that imperialist gang shall rule supreme on the seas and in the colonies, suppressing the millions of colonial peoples under their yoke.

The Young Workers League calls upon the young workers of America to raise their voices in protest against the dangers of new wars, to express er determination to carry on a war

. the working class for freedom against the war of the bourgeoisie for the slavery and murder of the work-

The most effective reply to the imperialist war-mongers is the building of a powerful young Communist movement which will carry on an organized fight against war, among the young workers in the factories and mines, and among the young workers in the army and navy. Join the Young Workers League! Swell its imperialists on International Youth

#### HAIL THE WORKERS PARTY CONVENTION!

The enemies of the Workers (Communist) Party have taken a malicious Communist movement of America. joy in commenting upon the internal fractional struggle within the Party as a sign of the disintegration of the revolutionary movement in this country. But the final outcome of the struggle has been a blow to the hopes of the reactionaries and heir lickspittles. Our party goes forth more firmly united than ever before. The political line for the Party has been accepted unanimously by both major is now no longer a matter of dispute: he voice of the membership has been Party. neard. The ranks of our Party are closed and we present a solid front

against the capitalist class. We have not been afraid to discuss the issues before the Party so that the entire working class might see and hear. We have been discussing the correct means of building a mass Communist Party which will be #ble to lead the workers in greater and White Terror Will sharper struggles against the capitalist class, and finally on to victory for the cause of the workers. We have shown that it is only the Communists who are able to discuss and argue their lines of policy and their errors while maintaining their firmness and strength.

The fourth national convention of the Workers Party is of special importance. Following after the sessions of the Communist International which laid down the broad outlines for the Bolshevization of the Parties of the International, the American Party faces tasks which are in many respects more difficult than those of almost any other party. Divided into almost a score of language speaking federations, working in a country with practically no tradition of mass revovith a necessarily round landership telephone wires.

has many obstacles in the way to its growth. Considering also the fact that the United States is the most powerful imperialist nation in the world, that its labor movement and labor leaders are the most corrupt in the world, that its forces of suppression of illimitable and unscrupulous, we realize the difficulties with which we are confronted.

cordance with historical development; it has on its side the inexorable movesecondly, it has an international leadership, the Communist International, from the collective experiences, of relenting struggle for the proletarian and strengthening the old branches.

The main tasks of our Party is at present the liquidation of the faction- ful and that the money spent for this al struggle, which means the amalgamation of both main Communist groups on the basis of correct Bolshevik policy. This can only be an due to the Finnish Federation of the intensive campaign to reorganize and W. P. who actually financed the further organize the Party upon the courses. Comrades Hays, Gannes and basis of shop nuclei, eliminating the Hathaway, the teachers at the courses federation form of organization, the leeper and more serious sinking of branch W. The new danger within our Party must be met in two ways. This new danger is appearing in one form or another in different sections of the movement. The menacing head of opportunism in the Party has especially of late begun to crystallize more sharply than ever. In the needle trades fractions of the Party in New York and Chicago, in sections of the Finnish, Jewish, German, Lettish, South-Slavic and almost every other federation, in educational institutions of the Party, these tendencies become more clearly manifest. The duty of the Communist backbone and body of the Party is to liquidate, to eliminate this tendency. This can be done by a sharp ideological and organizational campaign against it, and by the deeper entry of the Party into Bolshevik mass activity.

In this work the members of the ranks and bear onward the banner of Young Workers League have their revolution! Give your reply to the part to play. Of late the youth have of the Party. This must continue, with the provision that the Youth will once more take its historical position with the line of the Communist International. The students actually governed themselves, did all the outside work necessary, and even disciplined themselves. There were no slackers either at the classes, work hours, or at the dinner table. This is a living evidence how workers can perform their necessary duties with-

We come Out of the black houses Where you have forced your slaves To bed in dung.

Look! We are young! And your world is dying. We come to blaze the cobwebs From your walls. We come to wave a Red Flag Before your pale pompous faces, Black-coated vermin!

Listen! Youth is the time of love, They say, And of jewelled adventure. Your sweet tame poets have sung of it; And we have read, sullenly. Such youth was not for us; For you have drained our blood

I spoke to many workers on the picket line and asked them about organizing the packer boys and the packer girls. The packer boys should immediately be organized, that was the opinion of the strikers. The shop steward promised that in the advent of such an attempt he would encourage and try to persuad ethe union to help this

The packer boys who at present are working with scab men, are not having a grand and glorious time of it. They are required to wipe the rollers which is not their work, and are kept generally busy with the hustlers' work and even the assistants' work is sometimes done by them who have bene there for a longer period. Three or four should take immediate steps to encourage a walkout of the packer boys and help organize these boys and fight for the league's demands for the printing trade workers.

The proposal of the Y. W. L. is to organize under the patronage of the unions, a union taking in under one union all the present unorganized, unskilled workers not coming under the jurisdiction of the other unions.

The bindery workers have bad conditions and the unorganized should immediately organized in order to better fight these conditions. Come to

The leaflets, on account of which they were arrested, were advertising "Hands of China" and "Stand by Soviet Russia," under the auspices of the Kuo Min Tang (Chinese National Party), Workers Party and Young Workers League.

In spite of the fact that the young workers were arrested and that "The Hartford Times" which is the mouthpiece of the manufacturers' association refused an advertisement of the meeting. The demonstration was held and about three hundred workers listened attentively to the speakers. The workers cheered Wm. Simons, district organizer of the Workers Party and Sompon Lee and Wu Lee of the Kuo Min Tang, who were denouncing the mperialist's actions towards China and its only friend, Soviet Russia. Resolutions demanding the withdrawal of foreign troops, the cancellation of the unequal treaties, etc., and also pledging their support to Soviet Russia was unanimously accepted.

The young workers were arrested by a secret service agent who showed hat he was hired by the bosses, by he fact that he had a leastet distribut ed by the Y. W. L., a few weeks be-

(c). POLITICAL MINIMUM. League Syllabus. In addition to that it is absolutely essential, that every factory group as soon as 'it has about 5 or more members starts to go through the league syllabus. Particularly is it necessary as we have going to treble our membership and that soon the majority of our members will consist of those who have recently joined. For that purpose about one meeting every fortnight will be reserved for league training. The branch committee and the district committee have the duty to supply the factory grops with trainers (discussian leaders) for those evenings to be devoted to the training syllabus. The league syllabus shall under no circumstances gone through in a dry and abstract manner, but closely linked up with the conditions in this particular fac-

It is unit working on a battlefield, an there are always victims on a battldanger But if the work in the far tory groups is good the danger is even smaller than with the old branch.

The first and general rule is: Th boss and the foremen shall know that there is a factory group in the factory but they shall not know who is in They will see the activities of the factory group but not its members.

Second rule: In the factory onl: members of the factory group ma know who is in the factory commitee (or the secretary) and who make the paper.

Other points to watch are as fol lows: Factory gate meetings shoul be addressed and led by attache comrades: If leaflets and papers ar sold outside it is generally preferable that they are sold by attached con. rades. Meetings of the group should not be held in rooms watched by the boss and his spies. An attached con rade should be made responsible fo the issue of the factory paper.
